

EcoCase is a degradable phone case for your iPhone. It is made from natural wheat straw making it super eco friendly since it can degrade by itself in the environment unlike plastic. EcoCase ensures a unique appearance, flexible texture and has a drop-resistant four corners gasbag to help protect your phone as well as the earth. Another important feature is that EcoCase leaves 0.5mm space above your phone's camera and 1.0mm space above your screen thus making it super drop and scratch resistant.

Consumers are becoming more eco conscious and we all need to do our part protecting mother earth. We provide the EcoCase for the eco conscious consumer – will you join us??

### MAIN FEATURES OF ECOCASE

- Extremely friendly to the environment. Made out of wheat straw that can be degraded naturally in the environment unlike plastic

- Comes in various Colors

- Camera & Screen protection. 0.5mm attitude above camera and 1.0mm attitude above screen
